

Around the Village

The village is gently undulating and there are a couple of areas that have hills that may be challenging to those with physical impairments.

The following areas have prolonged gradients:

- The road from Aqua Sana to L951 (Grid Reference F9 & F10) Gradient of 1:25
- The road from L200 – L245 (Grid Reference C2 & D3) Gradient of 1:15
- The path from the lake to the Cycle Centre (Grid Reference F7) Gradient of 1:24

Please remember if you need transport around the village you can contact Guest Services and they will arrange for a mobility vehicle (which can secure a wheelchair) to collect you.

The external Play Areas are made of a bark chipping surface, and may not be suitable for wheelchairs.

The access path to Den Building has a surface of bark chippings, and may not be suitable for wheelchairs.

The beach may not be accessible by wheelchairs although there is a path surrounding the beach.
