

## **Sports Cafe**

This restaurant/bar is located within the Sports Plaza and has level, open access from the main walkway.

A lift is available to the mezzanine floor in the Sports Café (located in the central corridor walkway near to the access point to the toilets) providing access to the Aerobics Studio and the snooker / pool tables, with a ramp to the lower bar level. There is an accessible lift in the unit from lower to upper floor which is situated near the stairwell.

A lowered counter area is available to the right hand side of the bar. If required, please make a team member aware and they will direct you to this point and ensure that you receive attention for your ease of service.

There is some booth seating within the restaurant, however tables can be reserved for those wishing a specific request. Orders are normally taken at the table or by an app with the exception of during large sporting events.

Fully accessible toilets and a Changing Place are available adjacent to the Sports Café,

Noise levels within the restaurant can vary greatly especially when major sporting events are being shown in the restaurant.

The patio area at the rear of Sports Cafe is provided with level access from the Sports cafe and ramped access is available to the path below that leads to the external play area.

The external play area floor is covered with wood chippings and may cause some difficulties for wheelchair accessibility. The rest of the surrounding area is a level patio and is accessible.

There is limited access to the internal play areas, due to space constraints and the foam based flooring.
