

Around the Village

The village is undulating and some areas have hills that may be challenging to those with physical impairments.

The path leading from the cycle centre to the Village square has a 15% incline. This can be avoided by going to the plaza Hotel. Use the lifts first and then walk to the Village Square via the lake.

The path leading front the Lake to the 700's accommodation range has a 7% incline.

The road at the back of the Pancake House (by the Treehouses) has an incline that some may find steep. This can be avoided by going towards the Aqua Sana entrance (past the infinity pool) and over the bridge.

The path leading from the Hotel entrance going towards the 400's has approximately a 10% incline.

The path leading from the road way near lodge 300 leading down to the Plaza has an incline of 14%. This can be avoided by going in the Hotel entrance and down the lift.

The path way traveling from the 800's running down beside the Subtropical Swimming Paradise has a 10% decline.

The road way to the Outdoor Activity Centre has a 15% incline.

Please remember if you need transport around the village you can contact Guest Services and they will arrange for a mobility vehicle (which can secure a wheelchair) to collect you.
