

Security

The Security Lodge (situated at the entrance to the village at one end of the Arrivals Lodge) is accessible using a wheel chair. It is well lit and staff will assist if made aware there is an additional need.

There is an adapted toilet available.

The rest of the arrivals lodge is also accessible but there should be minimal need for guests to access this area.

Our Security staff are happy to give assistance as requested. Security may be contacted on extension 2804 (01525 842804). They will attend the location on village where assistance is required as necessary to assist where possible
